---

Hi again. Although I do have a copy of the below document, there are Figures, Tables and Attachments referenced in the September 14, 2018 Memorandum that are not included in the Appendix that was previously provided, or included in your below email. It seems that the Memorandum is referencing one of the (many) Draft FSs, but the references didn't match the Figures or Tables in any of my copies of the Draft FSs that I could find.

I figured it would be easier to request the referenced Figures, Tables and Attachments associated with this Appendix C document directly from you. I'm pretty certain that you're much more organized with your files than am I. LOL! - Jill

Hi Jill, sorry for the delay. Is this the document you're looking for?

Hi Rupika. So sorry to bother you again! I'm trying to organize and electronically store all of my Rolling Knolls documents and had the following question:

1. Can you provide (electronically) the Tables and Figures that are referenced in Integral's September 14, 2018 Memorandum (Subject: Rolling Knolls Landfill Feasibility Study – Residual Ecological Risk Evaluation of Alternatives)? This document was included as Appendix C of the Revised Draft FS that was submitted (I think) in ???2018???

Thanks in advance! - Jill
